

Expert treatment to get you back in action.

Our physicians are experts in the diagnosis and treatment of complex back, neck, shoulder, hip and knee conditions. We specialize in musculoskeletal trauma, sports injuries, degenerative diseases, infections, tumors and congenital disorders. Our physicians employ both surgical and non-surgical solutions to manage complex orthopedic pathology. We are experts in treating chronic pain.

Louis N. Radden D.O. has been practicing in Michigan since 2006 and is Board Certified in Reconstructive Spine Surgery. He established Spine Specialists of Michigan in 2007 as a state-of-the-art spine care facility to improve each patient's quality of life. In 2015, he added a comprehensive orthopedic group to treat all musculoskeletal conditions.

Specialists**
OF MICHIGAN

Most painful disorders can be managed conservatively. Our physicians utilize the most up-to-date treatment

strategies for pain, including medication, manual medicine, injection therapy or surgery to improve patient outcomes and results.

We believe that every patient evaluation starts with a thorough history and physical exam. It is important to understand the symptoms each patient is experiencing and how these symptoms affect lifestyle and quality of life. State-of-the-art diagnostic testing is performed and advanced surgical techniques are utilized when necessary. The highest priority is placed on improving each patient's quality of life and improving activities of daily living.

ing is performed and advanced surgical techniques are utilized when necessary. The highest priority is placed on improving each patient's quality of life and improving activities of daily living.
